

Pain Diagnostic Treatment Center

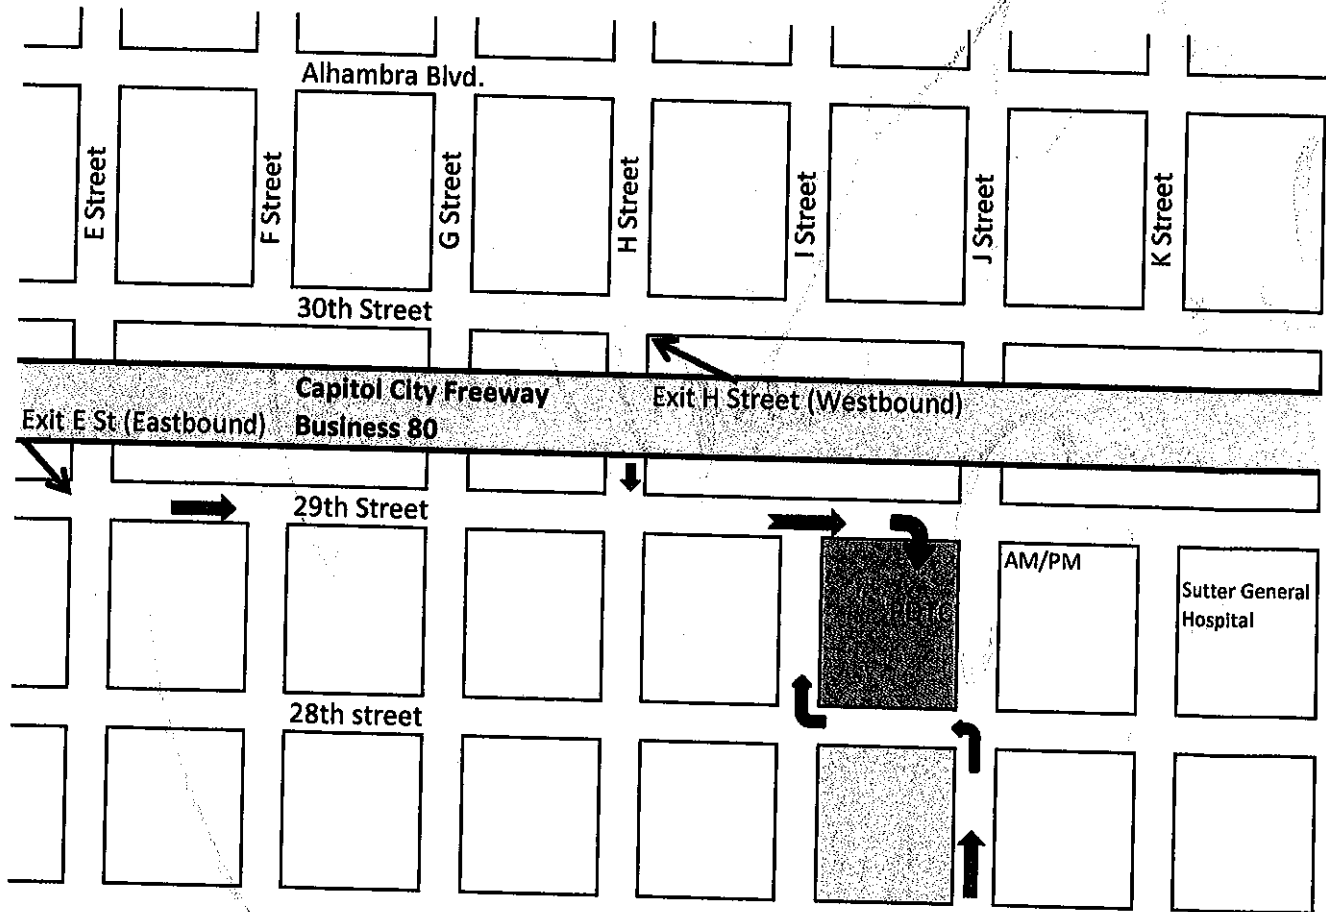

Directions to our Parking Garage

From Highway 50 (West) or from Highway 99 (South):

Merge with Capitol City / Business 80 (Reno) and stay on the right hand lane. Take the H Street exit. Turn left on H Street and cross under the freeway. Make the first Left onto 29th Street. Get into the right lane (29th is a one-way street south). Make a right turn into our parking garage. If you made it to J Street, **you went too far and must circle the one way streets back to 29th Street** to get into our garage. We are on the second floor level. There are two parking spaces adjacent to the doors, where you can unload and load.

From Capitol City Freeway heading south:

Take the E Street exit, which exits onto 29th Street. Stay in the right hand lane on 29th. Once you pass I Street, look for the parking entrance into the red brick building on your right.

If you take J Street from I-5, follow through downtown. Turn left at 28th Street around the park. Then turn right onto I Street. Turn right onto 29th Street (you cannot turn any other way). We are in the red brick building to your right. Enter into the parking garage.

You are responsible for the first \$4 cash or check (no credit cards) with your validated parking ticket. When you are discharged, we will bring you out by wheelchair to one of our designated parking spaces adjacent to our surgery center doors. Thank you.
